

# Built to the Standards of two Eras

GAS FURNACES / SPLIT SYSTEM  
AIR CONDITIONERS  
THAT COMBINE THE TECHNOLOGY OF TODAY  
WITH A HISTORY OF QUALITY.

**PHILCO**   
Heating and Cooling Products

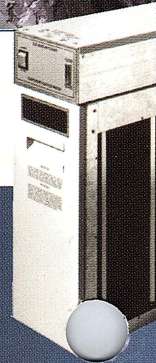

## *What are the advantages of a new gas furnace and split system air conditioner?*

Purchasing a new heating or cooling system is not as simple as replacing other household appliances. In most cases, the decision to buy is the result of the unexpected – a furnace fails in the cold of winter, or an air conditioner fails on a hot summer day.

So, when it's time to replace a whole system or a single unit, you should know that a new system could save you 10-30% on your energy bill over older units. Your Philco contractor will help you determine the ideal solution for your home while quickly getting you comfortable again.

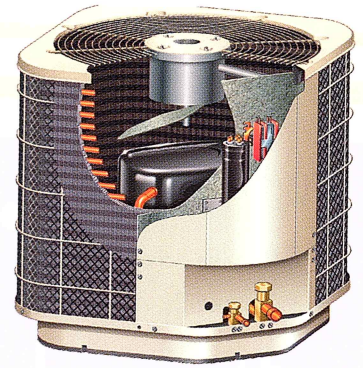

Our ultra-efficient furnaces and air conditioners meet the requirements of the Energy Star program. They exceed the EPA's guidelines for efficient operation, while maximizing indoor comfort and air quality.

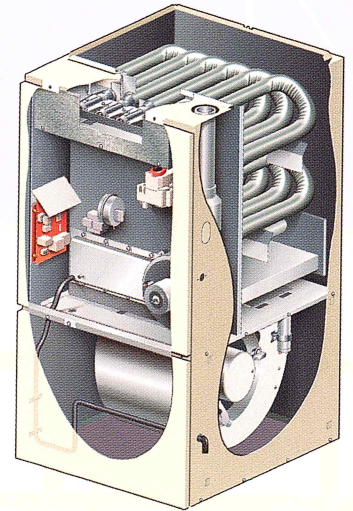

## AIR CONDITIONERS

- Plastic-coated rust-proof grille and plastic mesh protects coils from damage by extreme weather or flying debris.
- Copper tube/aluminum fin coils optimize heat transfer and increase durability and reliability.
- Permanently lubricated motor delivers long lasting reliability and quiet operation.
- Pedestal base with drain holes allows rainwater to flow away from unit.
- One-piece top designed for maximum airflow and quiet operation.
- Energy Star rating maximizes your energy savings (12 and 13+ SEER Models).
- Six-year warranty on all parts. A six-year compressor warranty on 10 SEER models, and a 10-year compressor warranty on 12, 13, and 14 SEER models.

## GAS FURNACES

- All units and each component are tested on the manufacturing line to ensure quality.
- Engineered for clean and quiet operation.
- A variable speed blower can be added on select models to increase air circulation, improve energy efficiency, and remove hot and cold spots. Add an electronic air cleaner for maximum indoor air quality.
- Heavy-gauge aluminized steel primary heat exchanger and stainless steel secondary heat exchanger on 92+ AFUE models to ensure long life and efficiency.
- Energy Star Rating means energy savings on 92+ AFUE models.
- Blower delay ensures warm duct temperature at furnace start-up.
- 6-year warranty on all parts. 20-year warranty on heat exchanger in 80+ furnace. Lifetime warranty on heat exchanger in 92 and 93+ furnaces.

## CONFIGURATIONS:

ULTRA HIGH-EFFICIENCY  
14 SEER AIR CONDITIONER  
+ 93 AFUE GAS FURNACE  
WITH VARIABLE SPEED BLOWER KIT

HIGH-EFFICIENCY  
12 SEER AIR CONDITIONER  
+ 92 AFUE GAS FURNACE

ULTRA HIGH-EFFICIENCY  
13 SEER AIR CONDITIONER  
+ 92 AFUE GAS FURNACE

STANDARD EFFICIENCY  
10 SEER AIR CONDITIONER  
+ 80 AFUE GAS FURNACE

- All systems are 100% computer tested on the manufacturing line for reliability.
- System configurations are not limited to those listed. Additionally, a split system heat pump may be recommended in place of the split system air conditioner.

## HIGH-EFFICIENCY ELECTRONIC AIR CLEANER

Remove up to 95% of dust, mold, and pollen from the air. The lifetime filter system will kill dust mites and their eggs. The filter never needs replacing. This air cleaner is perfect for people who have allergies or just want clean, breathable air.

Heating and Cooling Products

## SIX-YEAR WARRANTY

A manufacturer's confidence in the quality of their product is demonstrated in the warranty they offer. We offer one of the best warranties around – six years on all parts and a lifetime warranty on the 92+ heat exchanger. You may also select an extended six or ten-year labor protection plan. Ask your Philco contractor for specific details on warranties, utility rebates, and consumer financing programs.

## QUALIFIED AND KNOWLEDGEABLE CONTRACTORS

Selecting a heating and cooling contractor can be a difficult process. Looking for someone you can trust to guide you safely through the confusing world of upflows, downflows, SEERs and AFUEs can be intimidating. A qualified and knowledgeable Philco contractor can analyze your situation and recommend the perfect system for your needs. You can have confidence in a new system that combines the technology of today with a history of quality.
